CRITERIA FOR “STORIES AND PERSPECTIVES” PODCAST PARTICIPATION

- Recordings must include 2 people, either:
 - 1) from the same DR K-12 project; or
 - 2) from different DR K-12 projects, but with a common challenge or interest.
- The recording should focus on a common challenge or interest, rather than the DR K-12 project(s) itself—aspects of the project(s) can be brought up as examples to illustrate a point or points.
- Prior to recording, the 2 people should decide on a main focus question. The recording should start with one person asking the other person the main question and then asking follow-up questions throughout the dialogue. To learn more about this style, visit: <http://storycorps.org>
- Original recordings should be about 40 minutes to 1 hour long and sent to cadre@edc.org (WMA and MP3 files are preferred). This audio clip will be edited to a much shorter podcast. Ideally 3-5 minutes. In certain cases, we will create longer podcasts from the recording (or more than one 3-5 minute podcast).
- Recordings should include an engaging, sometimes humorous conversation. Voice should be informal.
- Podcasts will be posted based on quality of sound, potential relevance to audience, and diversity of perspectives and stories.
- This is an iterative process, therefore you will get the chance to review and give feedback on the podcast before it is posted.
