Project Smart Search | CADRE

1. **Select Keywords:** Define the projects you're searching for by selecting keywords that characterize the project's work (Products, Project Focus, Project Type, Target Audience) or what is challenging about that work (Challenge Area). [Keywords tutorial](#), [Project Smart Search video tutorial](#).
2. **Refine the Results:** Use the hot/cold slider to further define the projects you're interested in. Move the slider toward "hot" if a keyword should be of high importance in the project. Move the slider toward cold if a keyword should be of lesser importance in the project.
3. **Learn More:** Projects matching any of your keywords will appear; but, the projects which best match all of your keywords combined will appear on the top left and read from left to right. Scroll over the project logo to read the full title, and click on the logo to view the project's full profile.
