

Longitudinal studies of teacher development in elementary mathematics and science

CADRE Meeting, June 2, 2016

Dan Hanley, Western Washington University
Temple Walkowiak, North Carolina State University

Individually, take a couple of minutes to jot down your responses to the first prompt.
At the end of the session, you'll have time to revisit what you wrote.

What are some important elements of effective math and science teacher preparation programs?

At the end of this session

Look at what you wrote to the prompt above, and then respond to the question below.

In what ways did today's session reinforce, or make you think differently, about your list of important elements of effective math and science teacher preparation programs?
