Conferences for STEM Educators, Policymakers, and Researchers

Below are STEM education-related conferences that may be of interest to DRK-12 grantees for the purposes of (1) disseminating knowledge and products and (2) developing partnerships with stakeholders and end-users. These conferences were chosen because they provide researchers and developers with an opportunity to present their work to individuals that could use, promote, or improve the work. We include conferences that target practitioners and policymakers, as well as research and academic communities. Information for this index was collected primarily from organization websites. Proposal guidelines and submission dates are provided when available on the websites; we note "TBA" if we expect this information is to be announced in the future. This information will be updated annually for DRK-12 grantees.
