

Black & Latinx Parents Leading chANge & Advancing Racial Justice in Elementary Mathematics

Frances K. Harper, PI

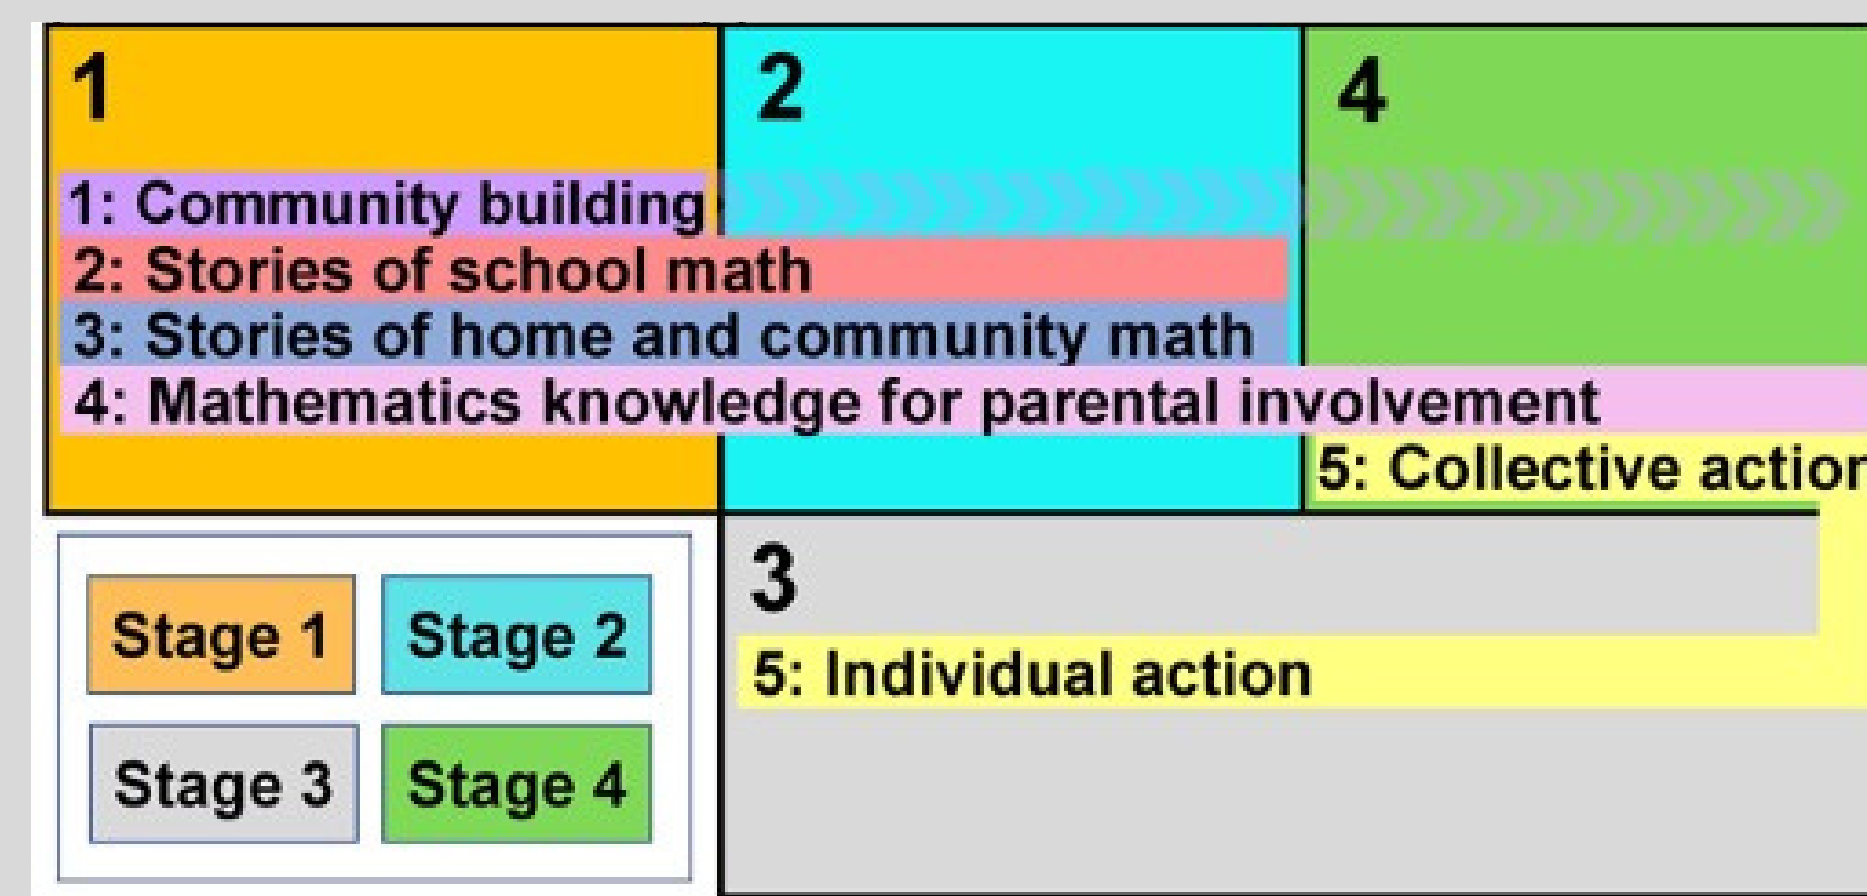

University of Tennessee, Knoxville

The goal of CAREER: PLANAR is to produce a model to **develop and sustain parent-teacher-community partnerships** that promote a shared vision and catalyze change towards racial justice in elementary mathematics. In 2022-23, Harper began collaborating with 5 Black mothers & 5 Latina mothers through 2 community organizations. Next year, we will add 10 teacher partners.

PAL

(Parents as Leaders)

Educational program to build parents' capacity to advance racial justice

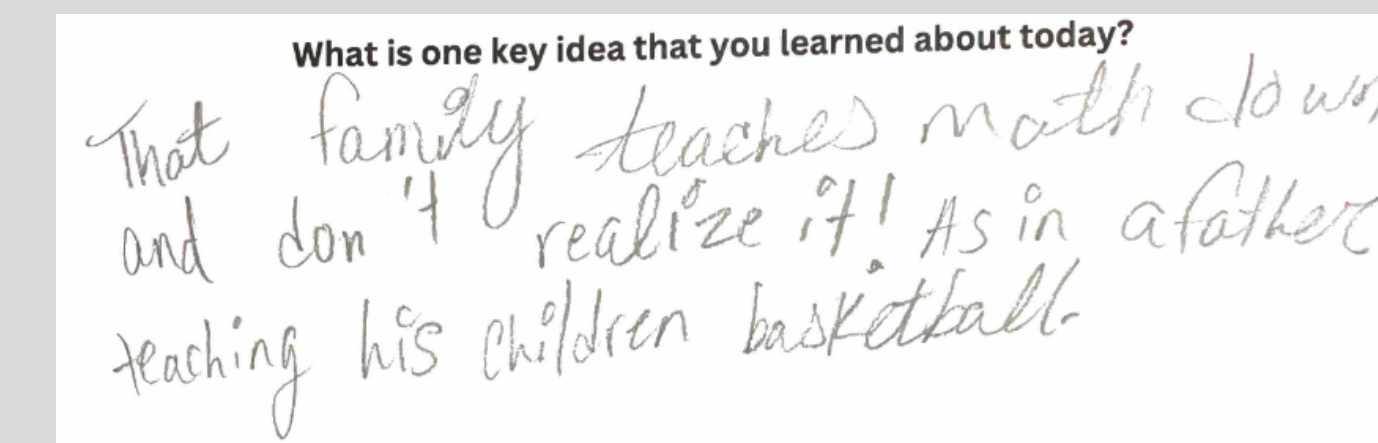

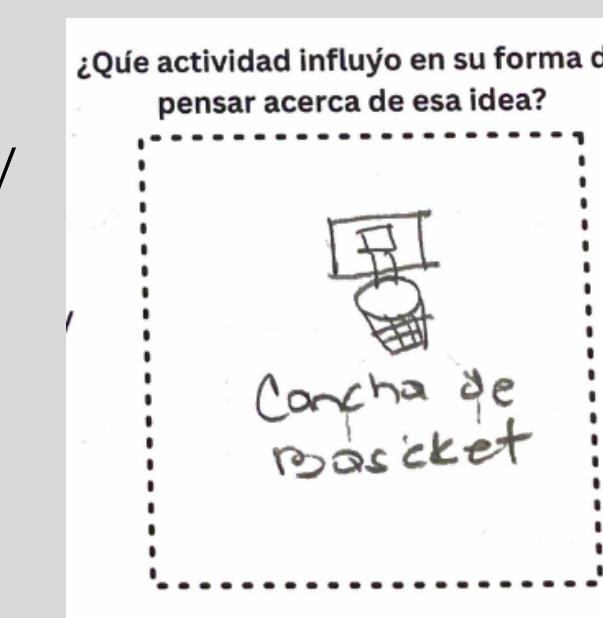

- Progression through stages is taking longer than planned.
- During 2022-23 the group built capacity within Stages 1 and 2.

Research Plan

- **NI:** To understand the lived experiences of Black and Latinx parents as they build capacity to lead localized change towards racial justice in elementary mathematics
- **SNA:** To study the development of parent-teacher-community relationships that promote a shared vision and localized change for racial justice in elementary mathematics

Narrative Inquiry

The working model for Stages 1-2 in PAL supported parents to build capacity by exploring stories of school math & stories of home & community math. Near the end of the 2023 PAL sessions, we did **math walks** together to share **stories of community math**. Scan the QR code to listen to one **mother's story about how the community used lots of mathematics to create a mural without realizing the mathematics at the time.**

Social Network Analysis

Exit tickets generate data about key ideas from each session, and who & what activities influenced those ideas. Analysis is currently in progress.

Parents Leading chANge & Advancing Racial Justice in Elementary Math

Date: _____ Your Name: _____

Exit Ticket

What is one key idea that you learned about today?

Who influenced your thinking about that idea? Circle all that apply.

What activity influenced your thinking about that idea?

Names of each partner (mothers, community partners, university partners) are listed here.
