### Partnership Development Concept Paper Essential Questions:

1. What is the developmental stage of the partnership (are you establishing a new partnership or expanding an established one)?
2. What are the project's specific aims relative to establishing or expanding the partnership? How are the specific aims important and beneficial to researchers and school partners? How has the partner determined these aims?
3. What are the partners' respective roles and responsibilities in the development work? What frameworks will be used to foster and/or deepen relationship-building and shared decision-making among partners? How do partners identify future proposed projects that ensure reciprocal benefits?
4. How will the project assess its success? What does the evaluation plan entail?
